You should choose Good Speakers not like Spanishs .

I dont have any recommendations

There should be another foods in the chool kafeteria

We enjoyed and benefited from our visit a lot.

The spanish group didnt talk to us. Everything else was great

There could have been a little more activities promoting your geography.

Thank you very much for the hospitality, it was a great experience

Id like visit the centrer of Helsinki first Day.

The turkys people didn't talk with nobody, less with spanish people. When the other turkys people came spain they were better than theses turkys people

Everything perfect

I wish that the future participants have a common language, so that they can communicate (unfortunately some Spanish participants did not speak any English, and were not willing to partake in activities or conversation).
